DETAILED ACTION

1. Applicant's election without traverse of Group II in the reply filed on February 7, 2007 is acknowledged. Claims 1-8, 10-11, and 15-49 are cancelled. Claims 9, 12-14 and 50-54 are pending.

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

2. Claim 9, 12-14 and 51-54 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Claims encompass encompass product of nature because there is no indication that "a hand of man" is involved in distinguishing the claimed product. It is suggested that the term "isolated" be inserted prior to "nucleic acid", "vector", and "cell".

Double Patenting

3. Claim 51 is objected to under 37 CFR 1.75 as being a substantial duplicate of claim 50. When two claims in an application are duplicates or else are so close in content that they both cover the same thing, despite a slight difference in wording, it is proper after allowing one claim to object to the other as being a substantial duplicate of the allowed claim. See MPEP § 706.03(k).

4. Claim 50 is allowed.
